### The lawful basis on which we use this information

We make sure that information we collect and use about pupils is in line with the GDPR and Data Protection Act. This means that we must have a lawful reason to collect the data, and that if we share that with another organisation or individual we must have a legal basis to do so.

The lawful basis for schools to collect information comes from a variety of sources, such as the Education Act 1996, Regulation 5 of The Education (Information About Individual Pupils) (England) Regulations 2013, Article 6 and Article 9 of the GDPR.

The Department for Education and Local Authorities require us to collect certain information and report back to them. This is called a 'public task' and is recognised in law as it is necessary to provide the information.

We also have obligations to collect data about children who are at risk of suffering harm, and to share that with other agencies who have a responsibility to safeguard children, such as the police and social care.

We also share information about pupils who may need or have an Education Health and Care Plan (or Statement of Special Educational Needs). Medical teams have access to some information about pupils, either by agreement or because the law says we must share that information, for example school nurses may visit the school. Counselling services, careers services, occupational therapists are the type of people we will share information, so long as we have consent or are required by law to do so.

In school we also use various third party tools to make sure that pupils best interests are advanced. This includes financial software to manage school budgets, which may include some pupil data. We may use systems to take electronic payments for school meals and other payments. We use software to track progress and attainment. We must keep up to date information about parents and carers for emergency contacts.

We also use contact information to keep pupils, parents and carers up to date about school events.

- who is requesting the data
- the purpose for which it is required
- the level and sensitivity of data requested: and
