

Back in the autumn term we were lucky to receive 600 flower bulbs from Bulbs4Kids consisting of Daffodils and Tulips.

On a bright December morning, the pupils planted the bulbs in pots kindly donated to our school. They planted them in layers and then covered them with netting to protect them from the squirrels.

This is how the bulbs looked in February when the shoots came out.

Thank you Bulbs4Kids for the bulbs and providing us with a beautiful flower display to enjoy!
